

Acad 24-25/Cir- 02 / 11th June, 2024

Dear JPS families,

Greetings!

1. Handwriting skills are necessary for students to be successful both at school and in life. How a child writes may have a real impact on which they are according to educationists and graphologists. Good handwriting is a dominant tool!
2. Cursive writing is an important cultural and academic discipline that teaches students focus and fine motor skills, benefits that carry over to all major subject areas, from math to English composition.
3. JPS Writewiz curriculum helps children establish a motor plan, when students are learning to make strokes and lines.

GroFiA™ is a methodology offers a unique base for children to develop their writing by:

- ❑ Reviewing and Recapping activities to encourage self-improvement
- ❑ Offering a step by step progression from basic 4 line to single line / blank sheet writing (with reference to classes)
- ❑ Commencing from introductory level to higher levels of sophistication and style
- ❑ Gradually leveraging performance level for every class from the second year onwards
- ❑ Assessment and grading after each module
- ❑ Specialized worksheets for students with difficulties in specific areas,

JPS Writewiz is to ensure that your child's handwriting becomes a source of pride, contributing to an overall positive academic experience.

Utilise the services by paying just 500/- per annum to your head teacher.

Regards

Tr. Saravanan Thiyagarajan

Principal
