Welcome

ISSUE 03, December 2021

“ Greetings of the season to all our readers!

- Welcome to the November issue of JPS EDGES. As Covid-19 continues to have a major impact on education around the world, our key focus is to support students and parents in dealing with the challenges that the situation presents.
- We know the ways in which education has been affected by the pandemic and North East monsoon climate is continually changing but we hope that, in the coming months, the situation will return to normalcy and stability is maintained in the teaching - learning process.
- India is rated to be the most depressed country in the world as stated by the WHO, which brings us to delve straight into the truth: Nowadays, children are either depressed, or growing up to be depressed, anxious individuals. Helping students to progress remains our topmost priority and that's why we have expanded and updated JPS with the 21st century education philosophy in this issue.
- I would like to close with a popular quote, **“A teacher has two jobs; to fill young minds with knowledge, yes, but more important, give those minds a compass so that learning doesn't go to waste.”**
- We render our thanks to all the parents who have sent articles on the topic '**IMPORTANCE OF PRIMARY SCHOOL EDUCATION**' and we have presented a few impressive and thought-provoking write-ups in this newsletter.
- We're always interested in hearing your views. We invite articles on the topic '**DIGITAL LEARNING AND DISCIPLINE**' for our next issue of the newsletter. If you have any comments about the newsletter or if you'd like to tell us about what's happening at school, please email at principal@jpschennai.org.

Happy teaching and learning!

Tr. Saravanan Thiyagarajan

Principal

Jain Public School

21st Century Education focus at **JPS**

JOYFUL PRE-PRIMARY YEARS

Goals: 3E'S

- **Encouragement**
- **Environment**
- **Enrichment**

With our fun school activities for pre-primary children, learning becomes interesting and enjoyable, and goes beyond textbooks and whiteboards. Carefully tailored school activities have led to the all-round development of children and has helped them to achieve their maximum potential. Pre-primary years in JPS involve playful activities, integration of music, use of appropriate ed-tech and practices that nurture spontaneity, self-expression, creativity and confidence. The watchword for the teachers is using the language of encouragement.

EMPOWERING OF PRIMARY YEARS

GOALS: 3C'S

- **Compete with yourself**
- **Competency in Core Subjects**
- **Caring and Compassion**

The Primary Curriculum at JPS is transacted in a joyful environment that empowers primary age children and develops their competency. We create a stimulating learning environment that supports individual children and challenges/stretches them to achieve their best. We help children to develop the qualities of hard work, good manners and self-discipline. They come out as confident individuals with a growing sense of the social world around them.

INSPIRING JUNIOR YEARS

GOALS: 4E'S

- **Expression**
- **Exchanges**
- **Exposure**
- **Events**

Dance, debating, sports, Indian and Western music (with the option for individual music lessons), elocution, foreign language classes, public speaking, community service, and foreign visit opportunities are used to expand minds and shape young personalities. The school creates a stimulating learning environment that both supports and challenges an individual student. It promotes a safe, orderly, caring, and supportive environment.

VICTORIES SENIOR YEARS

GOALS: 5PS

- **Preparation for a Life of Service**
- **Pleasing Personality**
- **Performance in the Boards**
- **Praiseworthy Character**
- **Proficiency in English**

The senior years are the time for the students to learn valuable skills for life from their professional teachers. This is the time period to set some long-term goals and also to develop a sense of pride in accomplishment. The school sets rigorous academic standards as it is our desire to help every child to excel and to open his/her eyes to the possibilities that lies ahead of him/her in the world at large.

Our students' success is visible through excellent board results every year. This is based on:

- Pupils' support and motivation by teachers.
- A healthy and competitive environment, including competition with yourself.
- A very high standard of teaching .
- Enrichment and remedial classes, based on a data-driven diagnosis of each individual learner's progress and need.
- A meta cognitive approach – which makes pupils analysts of their own performance.

Importance of Primary School Education

Education is a fundamental right of every kid and as parents we are responsible for providing a quality Primary schooling to the kids, as it forms the base of their social behaviour. Primary schooling is the first step in making of the character of the child. It includes the kids between age group of 6-10 years.

- ★ The kids emerge out of their cocoons and learn to socialize in school. It is the place where development of skills and moral values is achieved.
- ★ According to Einstein “Education is what remains after one has forgotten everything he learnt in school”. Education is just not the knowledge imparted through reading alone but it is the habit inculcated in schools in the fresh budding minds and memories of the kids.
- ★ It should be made more enjoyable to students by engaging them in training their skills in addition to didactic lectures. As Parents we should also communicate with children and encourage them to participate in school events as reading alone doesn't help them to emerge out successful. Child matures to become a good human being.
- ★ Hence both the school and parent should understand the importance of this vital period of a child's life and put in the best of efforts to prepare the child for the future.

Dr. Priyadharsini Nataraj, MDS
Mother of **R.Chendurr Aswin**
Grade II - B

We all know that primary education is considered to be the foundation stone of education process throughout the human life, to develop a person into competent citizen. It is the initial step to take advantage of future education opportunities and lifelong skills. **Primary Education provides a child with the opportunity to read and write in his /her own language.** Primary years are considered as important basic years for children, when the basics of their life gain strength, their personal skills, their understanding, linguistic abilities, sophisticated creativity, etc. will develop. A child's interest is detected so that the child can be given more emphasis on home tuition or in any other way of to pursue his/her interest. The younger generation of today is the foundation of a nation, just as a building cannot survive without foundation, in the same way no nation can progress without youth power. The first contribution to the creation of a strong and responsible young generation depends on the primary education of the student.

Mrs. Poornima

Mother of **Abhinav Aarya .M**
Yashita .M

“ Charity begins at home” and the young age learning for a child starts from home .

Then the child is all set to frame the footprints in the Kindergarten after which it enters the primary school.

“Primary School Education” -the right of every child forms a strong basement on which the child's education structure stands firm . It is crucial for every child to undergo “Primary School Education” . It is supportive and develops the mental and physical strength of a child . It is at this prime age that the child imbibes and inculcates all the values of life and stands tall with self – esteem and pride . The child develops individuality and creates an identity for itself .

“ Mirror mirror on the wall who is fairest of all “ can well suit a primary school child .The primary school education makes the child reflect upon as it creates a mirror image on thought provoking ideas . These days always makes the child 's life reflective . The child's gets fair chance of all kinds with Primary School Education.

Every child should be given the scope of Primary School Education. Let us all join hands and promote Primary School Education – the key to success , and the paradise of foundation for a child who is at its prime youth .

Mrs. Malini iyer

Mother of **Ayush Iyer**
Grade VII

Education is very important for everyone, Especially Primary Education moulds the child to grow in a disciplined manner. Like interacting with others, language development and gaining confidence. Teachers contribution plays a major role in this part. Primary Education lays the path to achieve the highest in children's joyful journey.

ACHIEVEMENTS

"Success starts by hard work and ends with achievement"

ASSIST WORLD RECORD

The sky is the limit. And JPS is making all attempts to reach the sky. Our Tamil department headed by **Mrs. Usha** and **Mr. Balaram** guided and motivated the students to perform a Tamil skit on the topic **"Always have great and grand thoughts"** to commemorate the **90th Birth Anniversary of Dr. A.P.J Abdul Kalam**. The entire team under the guidance of The Principal **Tr. Saravanan Thiyagarajan** and the primary co-ordinator **Ms. Radha** brought laurels to the school. Kudos to the team members. **Ms. Ponni** was a part and parcel of the entire programme.

Mr. Balaram was awarded a certificate for being A **"Skilled Story Teller"** in an One Hour Event.

Vivek G Krishna of Grade 3 has won a certificate scoring 59 points out of 90 possible. in **Bricsmath.com+**.

Yadhunandhan, R of Grade 6 has bagged a Gold Medal in **Asia TAEKWON-DO Virtual Tul Championship 2021**.

Thirunethra suthakar of Grade 3 has scored 62 points out of 90 possible. in **Bricsmath.com+**.

L.C. Arjunaa
Grade 2-B

L.C. Sri Vaishnavi
Grade 5-B

L.C. Arjunaa of Grade 2B and **L.C. Sri Vaishnavi** of Grade 5B have secured yellow belt in Karate.

JPS

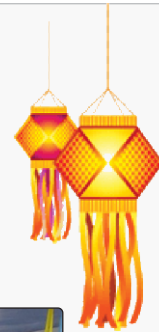

Diwali is a symbol of hope for humankind. May it bring universal compassion, inner joy of peace, love and the awareness of unity to all.

The Diwali celebration added grandeur and a festive mood to JPS. The senior students presented a cultural programme to make it an appreciable and fun filled day.

DIWALI

Diyas were lit all around the place to make it, bright and pompous. It was an ecstatic moment of celebration bringing prosperity and richness around JPS. The entire campus was glowing with happiness.

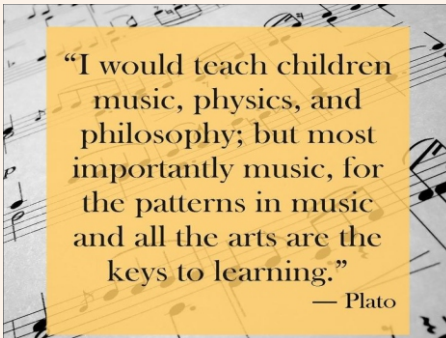

Diwali Celebration Greeting Card Design by students

The Primary students celebrated Diwali in a different way. They prepared greeting cards and Diwali posters to exhibit their skills, talent and creativity.

Learning Through Music

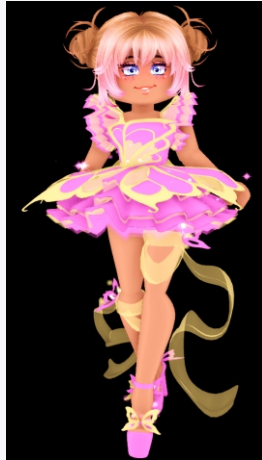

Blending music with teaching curriculum makes learning appreciative and interesting. A live demonstration was given to the students of the primary. The students were mesmerized as they swayed to the musical notes and learnt the topic with great interest.

CREATIVE CORNER

KAVINSHIYA.S UKG

ARADHANA.A UKG

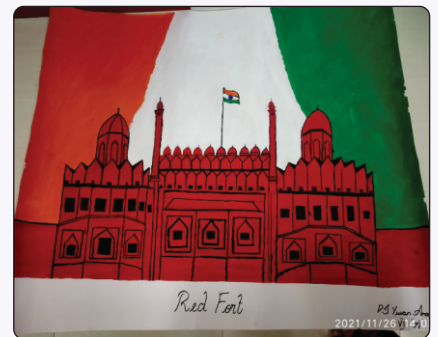

Art and craft makes learning interesting and fun filled. The children seem to be elated doing craft work in their learning sessions. It helps them to reflect and think out the box.

Rithik.R Grade : VI-A

S. AAKASH RAJ Grade : VII-B

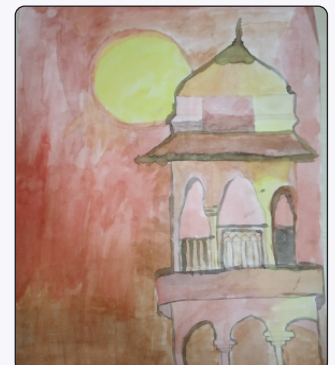

P.J. YUVAN ANAND Grade : VI-A

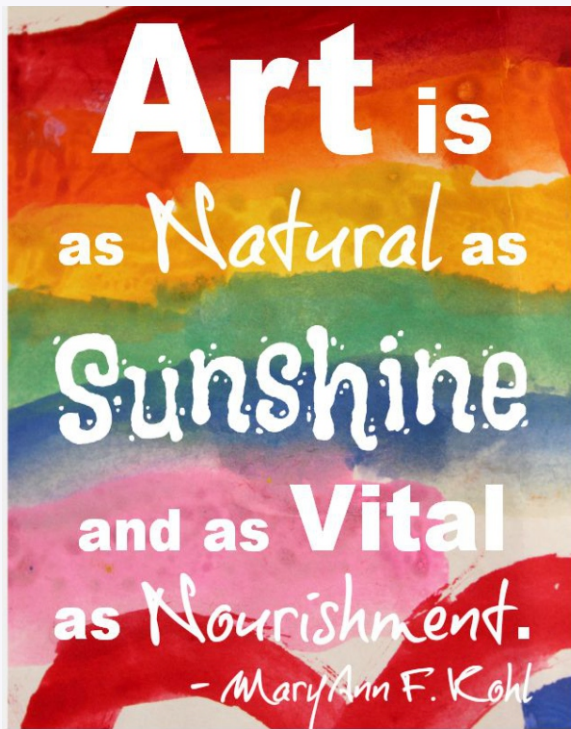

S. AAKASH RAJ Grade : VIII

TANISHKA Grade : VIII

THAMARASELVI Grade : VI

SRIYA SHALIN SHALOO Grade : VIII

Paintings and drawings are expressive art forms. These art forms not only de-stresses the child but also develops the fervor in every child to reach great heights.
