ISSUE 30 April & May 2024

“ Greetings of the season to all our readers!

**Dear Parents, Guardians, Teachers, and Students,**

- ✧ In our rapidly evolving world, education must advance to meet new challenges and opportunities. At Jain Public School , we are committed to fostering an environment that adapts to these changes and prepares for the future. Central to this vision is our dedication to continuous learning and the implementation of innovative assessment methods.

## Continuous Learning

- ✧ In our rapidly evolving world, education must advance to meet new challenges and opportunities. At Jain Public School , we are committed to fostering an environment that adapts to these changes and prepares for the future. Central to this vision is our dedication to continuous learning and the implementation of innovative assessment methods.

## Futuristic Assessment Methods

- ✧ Traditional assessments often fail to capture the full spectrum of a student's abilities. At Jain Public School we are pioneering futuristic assessment techniques for a more comprehensive picture of student development.

**Personalized Learning Paths:** Using data analytics and AI, we tailor educational experiences to meet each student's unique needs.

**Project-Based Assessments:** These allow students to apply knowledge in real-world scenarios, fostering deeper understanding.

**Digital Portfolios:** These dynamic records showcase a student's growth over time, offering a holistic view of achievements.

## A Community Effort

- ✧ Our commitment benefits not only our students but also the entire school community. Teachers can provide more effective instruction, parents gain clearer insights into their child's development, and the broader community benefits from future-ready individuals. Together, let's inspire and empower our students to achieve their highest potential through continuous learning and futuristic assessment.

- ✧ We are always interested in hearing your views. We invite articles on the topic '**Universal Learning Design** ' for our next issue of the newsletter. If you have any comments about the newsletter, or if you'd like to tell us about what's happening at school, please email us at [principal@jpschennai.org](mailto:principal@jpschennai.org).

# INFOCUS

## Continuous Learning Assessment : Enhancing Student Growth

### Introduction

Continuous learning assessment is a transformative approach in education that emphasizes regular evaluation of student progress to inform teaching practices and enhance learning outcomes. This method is gaining traction in schools worldwide due to its focus on fostering ongoing student growth and development.

### The Importance of Continuous Assessment

Continuous assessment provides real-time insights into student understanding and skill development. Unlike traditional assessments, which occur at the end of a learning period, continuous assessments are integrated into daily instruction, offering numerous benefits.

### Benefits Include :

**Personalized Learning:** Tailoring instruction to meet individual student needs.

**Timely Feedback:** Providing students with immediate feedback to support learning.

**Identifying Gaps :** Quickly identifying and addressing learning gaps.

**Encouraging Engagement :** Motivating students through regular and varied assessment methods.

Activate

# Implementing Continuous Learning Assessments

To effectively implement continuous assessments, educators need to adopt various strategies and tools that align with their teaching goals and student needs.

## Strategies for Effective Implementation:

**Formative Assessments:** These include quizzes, polls, and informal checks for understanding during lessons.

**Self and Peer Assessments:** Encouraging students to assess their own and each other's work to build critical thinking and self-reflection skills.

**Performance-Based Assessments:** Utilizing projects, presentations, and practical tasks that demonstrate student learning in real-world contexts.

**Technology Integration:** Leveraging educational technology platforms to streamline assessment processes and analyze data efficiently.

## Tools and Resources for Continuous Assessment

Various tools and resources can support continuous assessment, making the process more manageable for teachers and beneficial for students.

## Recommended Tools:

**Learning Management Systems (LMS):** Platforms like Google Classroom or Canvas facilitate the organization and analysis of assessment data.

**Interactive Apps:** Tools like Kahoot, Quizlet, and Seesaw engage students in interactive learning and assessment.

**Data Analytics Tools:** Software that helps teachers track and analyze student performance over time to inform instruction.

## Challenges & Solutions :

While continuous assessment offers many advantages, it also presents challenges that need addressing to ensure successful implementation.

## Common Challenges:

**Time Management :** Balancing assessment with instructional time.

**Training Needs :** Ensuring teachers are adequately trained to use new assessment tools and methods.

**Student Anxiety :** Reducing the stress that frequent assessments might cause for some students.

## Solutions:

**Professional Development:** Providing ongoing training and support for teachers.

**Assessment Literacy:** Educating students and parents about the purpose and benefits of continuous assessment.

**Balanced Approach:** Incorporating a mix of assessment types to maintain student motivation and reduce anxiety

## Conclusion

Continuous learning assessment is a powerful approach that can significantly enhance the educational experience for students. By regularly evaluating and responding to student progress, educators can create a more personalized, engaging, and effective learning environment.

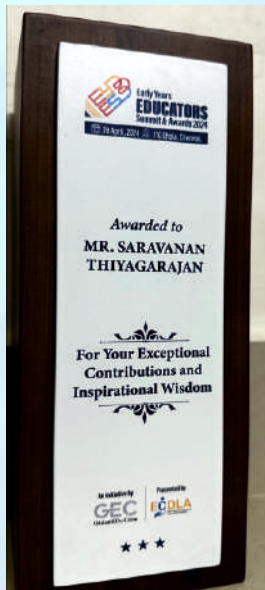

# KG CORNER

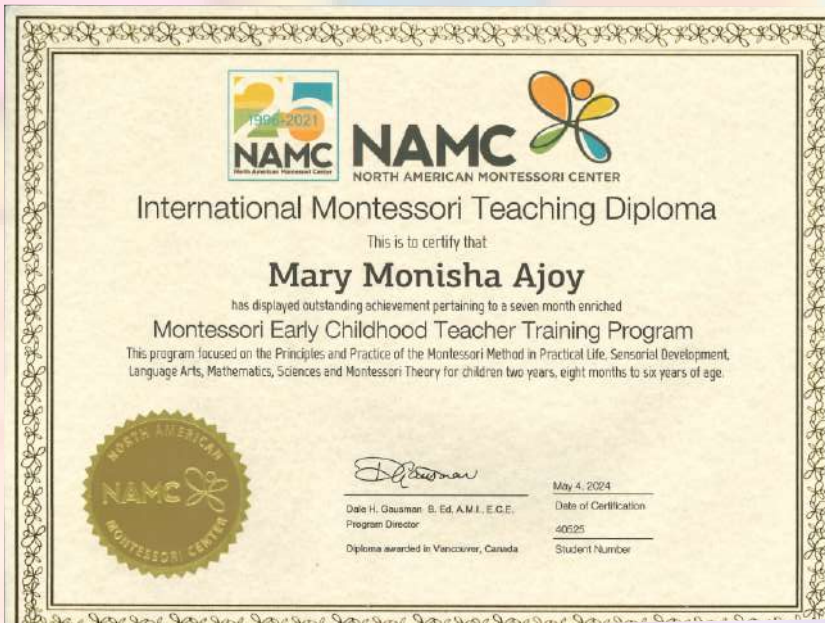

# Educators' CORNER

The Google Educators Groups (GEGs) bring local educators together, both in person and online, to provide a forum for sharing, collaboration, and mutual support in using technology effectively with students. While I couldn't find an explicit motto for the Global GEG, their mission aligns with Google's commitment to empowering educators and learners worldwide through technology, tools, and training. These groups foster learning in schools, classrooms, and communities, connecting educators who use Google tools. GEGs are organized by local volunteer leaders and are independent from Google as a corporation. They offer free online and offline events, allowing educators to engage, learn, and inspire one another.

We are happy to share that Our **Primary Coordinator Ms. Mary Monisha Ajoy** has achieved **International Montessori Teaching Diploma** in **North American Montessori Center**.

# SUMMER'S ESSENCE, A SHIMMERING DREAM.

*A season to adore,  
The children's laughter soar,  
In the heat of summer, a golden glow,  
Nature's wonders commence to show,  
It's summer time  
A shimmer time.*

*Where days stretch long and stars ignite,  
In meadows wide, with fireflies bright,  
Sand between toes, waves' gentle kiss,  
Sun-kissed skin, pure and bliss.  
It's summer time  
A shimmer time.*

*Picnics in parks, and hikes up hills,  
Through forest trails, our spirit fills,  
Beneath the sun's resplendent blaze,  
We wander through the golden days.  
It's summer time  
A shimmer time.*

# Madhubani Art

Madhubani art is a style of painting practiced in the Mithila region of India and Nepal. It is named after the Madhubani district of Bihar, India, which is where it originated. Jitwarpur and Ranti are the two most notable cities associated with the tradition and evolution of Madhubani art.

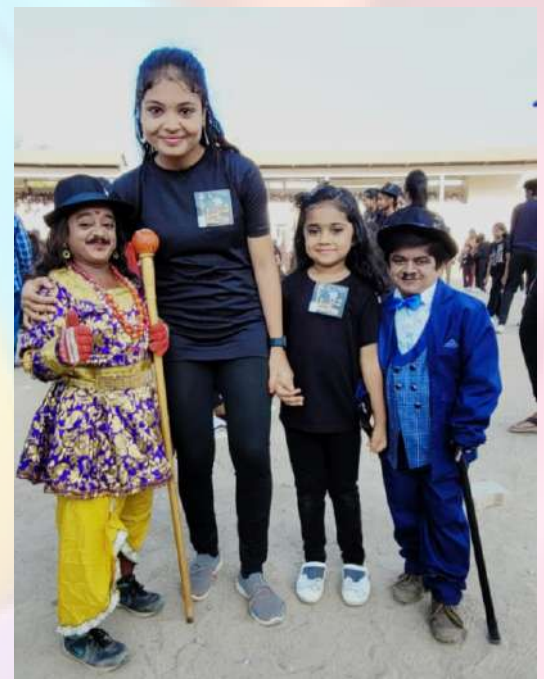

JPS is Involved in each and every Pursuit of Education. CBSE Evaluation is done by a group of Expert Teachers under a Head Examiner. The Marking Scheme Provided by CBSE is religiously followed. Our faculty **Ms. Sreelakshmi** was the part of the same.

The workshop covered a range of topics, including:

- ✦ Utilizing educational technology platforms for enhanced learning experiences.
- ✦ Integrating AI-powered tools for personalized learning and assessment.
- ✦ Exploring the ethical considerations of using digital and AI tools in education.

In the sway of inspiration, the young dancer of course the children's loved faculty of JPS Ms. Swathi has participated and been awarded for her great admiration and excitement. Acknowledging the profound journey undertaken towards reaching the summits of aspirations through the art of dance. From the graceful movements to the fiery expressions, each step taken by her resonates with the depths of her soul. As she embark on this path towards greatness. May Swathi continue to dance with the stars.

# AWARDS & ACHIEVEMENT

At Jain Public School, we're dedicated to nurturing student success through academic excellence and character development. We encourage curiosity and ambition, fostering a spirit of exploration and achievement. One such shining example is **S Lakshitha G9**, from a humble background, whose passion for cinema has propelled her from local adverts to the brink of stardom alongside **Mr. Yogi Babu**. We celebrate Lakshitha's remarkable journey, a testament to her resilience and determination. We're proud to share in her successes and commend her unwavering perseverance.

We are thrilled to share that **John Samuel** of **Grade 5** showcased his exceptional talent at the esteemed Yonex Interstate Badminton Tournament hosted by the Sports Development Authority of Tamil Nadu (SDAT). Competing in the Under 9 boys category, John demonstrated remarkable skill and determination, ultimately securing the runner-up position. His achievement is a testament to his dedication and hard work in the sport. We are incredibly proud of his success and look forward to witnessing his continued growth and accomplishments in the future. He has been felicitated with the cash award of rupees three thousand and with a prestigious trophy.

The world is evolving rapidly, especially in the post-pandemic era. Children face both visible and invisible changes, impacting their education and social lives. JPS joined hands with MiTran Global recognizes the need to restore their self-esteem, confidence, and social skills through our 'Positive Mind Transformation Courses.' The program focussed on cultivating critical 21st-century skills and a mindset to tackle challenges and failures. All our facilitators took an oath to continue the magic inside the classroom. They had been certified for the same.

Once upon a time, Drona, the teacher of the Kauravas and Pandavas, gave them a test on archery. The test was that they must shoot a toy parrot's eye which was placed on a tree branch. At first, he called Yudhistir. He asked, "Yudhishtir, can you see the tree?" Yudhistir replied, "Yes." Drona asked, "Can you see the branch?" "Yes!" "Can you see the parrot?" He said, "Yes!" "Now shoot!" said Drona. But sadly, he failed. Next, he called Duryodhana. Duryodhana also failed. Then, he called Arjuna. He asked, "Arjuna, can you see the tree?" Arjuna replied, "No." Drona asked, "Can you see the branch?" "No." Can you see the parrot?" He said, "No" "What else could you see?" asked Drona. He said, "I could only see the eye of the parrot." Drona smiled and said, "Now shoot!" Arjuna passed the test and promised Drona that he would be one of the best archers in the world.

# An Apology

Seeing you disappear haunts me,  
but there is something behind that pulls me.

You are being forgotten that you are the best God given gift,  
and people give up from holding you tight like a swift.

They just don't see your amazing features,  
which attracts me to take a lot of pictures.

You help me gain hope when I feel like giving up,  
your mightiest forms just persuades me to step up.

In the nights you give me melancholy,  
In return I could just say sorry.

You the creator of mesmerizing sites,  
is not being treated right.

Even though I could not help,  
through this I am trying to yelp.
